by: Paul S. Williams (gammahammer@yahoo.com)

Apply any notes for specific creature from below, otherwise roll-up just as any other PC

-Roll D100%: 1-50%=Standard Size, 50%< = add D100%X2 to size and weight figures

* Insects ALWAYS roll for larger size

Roll 1D4 for Stock Chart and then roll for specific Animal Stock

Animal Data

These tables are used when an Animal Encounter is indicated on the Encounter Checks

PC = Physical Characteristics. This stat is an average of a creatures Physical Abilities

MR=Moral **#AP**=# of Appearing **HD**=Hit Dice **Att**=# of Attacks

AC=Armor Class **MV**=Movement Rate **DM**= Damage

walk/fly/swim/burrow/climb

MC = Mental Characteristics. A generalization of all the creatures Mental Abilities

and also indicates how many commands an animal can learn

[PC and MC are used in place of regular ability scores when making saves]
